JupyterLab • 5 GB • ml.t3.medium

Run space

Status: Stopped

Instance: ml.t3.medium

Image: Sagemaker Distribution 4.5.1

Space Settings New

Learn about Spaces

A space is a named, self-contained, durable storage container (like a filesystem), to which an app can be attached.

Storage (GB)

5

Enter a value from 5 to 100 GB. Please contact your administrator for larger storage volume.

Attach custom filesystem - *optional*

Select filesystem...

Idle Shutdown (minutes)

60

Enter a value from 60 to 525600 minutes.

Lifecycle Configuration

No Script

Successfully stopped space: gsb5544
